Go home, self-isolate and complete the online assessment tool at covid19.gov.im. If your symptoms indicate possible COVID-19, the tool will advise you to contact 111. 111 will provide a clinical assessment, offer testing if appropriate and provide guidance on self-isolation. If you are advised (through the self-assessment tool or 111) that the symptoms don’t suggest possible COVID-19, you do not need to self-isolate and can return to work when you feel well enough.

If you are waiting to be picked up to go home, you should stay in a designated room at least 2 meters away from others and if possible open a window for ventilation. If the weather permits, remain outside but at least 2m away from others.

**DISPLAYING SYMPTOMS OF COVID-19?**

If you become unwell at work and believe you may have COVID-19, you must:

- Go home, self-isolate and complete the online assessment tool at covid19.gov.im. If your symptoms indicate possible COVID-19, the tool will advise you to contact 111. 111 will provide a clinical assessment, offer testing if appropriate and provide guidance on self-isolation. If you are advised (through the self-assessment tool or 111) that the symptoms don’t suggest possible COVID-19, you do not need to self-isolate and can return to work when you feel well enough.
- If you’re waiting to be picked up to go home, you should stay in a designated room at least 2 meters away from others and if possible open a window for ventilation. If the weather permits, remain outside but at least 2m away from others.
