

# Think pharmacist

Did you know pharmacists can...

-  Guide you on healthy lifestyle choices
-  Help you with current prescriptions
-  Diagnose and treat many common ailments
-  Recommend over-the-counter remedies
-  Advise on whether you need to see a doctor

Ask your pharmacist for help  
this winter.

Visit [gov.im/winterhealth](http://gov.im/winterhealth) for more  
information on pharmacies near  
you.
